

## JOIN THE STATE PARKS TEAM!

### **Position Opening** **Environmental Services Intern**

*The Department of Parks and Recreation – equal opportunity to all regardless of race, color, creed, national origin, ancestry, sex, martial status, disability, religious or political affiliation, age, or sexual orientation.*

The Bay Area District is offering a paid internship assisting California State Parks ecologists on resource management issues. The Environmental Services Intern will gain an understanding of resource management issues facing California State Parks and other land management agencies. Funding is available for 9 months on a full-time basis. The person hired could work part-time during the school year and full-time during the summer or full-time for the entire 9 months. Hours are flexible. The position is a combination of field and office work.

#### Salary

The wage is \$10.44 to 12.37/hour, depending on education and experience.

#### Position Description

The successful candidate will research a variety of topics such as exotic species, fire ecology and land use using the internet, scientific journals, library resources, and databases; contact experts; map and eradicate exotic species; perform ecological restoration and monitoring; occasionally lead groups of CCC and volunteers performing resource management; write short reports and compile documents in notebook format; make resource management recommendations and prepare management plans; maintain and organize maps and files

The ideal candidate will possess the following characteristics: excellent research and writing skills; the ability to read maps and identify plants; a knowledge of Bay Area habitats and ecology; the ability to work independently with minimal supervision; the ability to communicate and work with a wide variety of people; have coursework and a background in ecology, resource management, or conservation biology; possess a desire and willingness to learn; a keen interest in State Parks; enthusiasm and a sense of humor.
